ABOUT ME

I'm an MBA student specializing in Marketing with strong academic performance. What sets me apart is combining marketing skills with technical abilities in VIBE coding and AI workflow automation. Through internships and projects, I've gained hands-on experience in digital marketing, consumer research, and building AI tools. I'm looking for opportunities where I can use both my marketing knowledge and tech skills to help businesses grow.

PROJECTS UNDERTAKEN

MULTIDISCIPLINARY ACTION PROJECT AUG To NOV 2025

On "A Study on Developing Marketing Mix Strategies for Sajan Sherwani"

- *Through this project, I gained hands-on experience in business diagnosis and digital transformation by revitalizing a local fashion brand. I successfully implemented a professional website with live chat and QR code integration to boost digital visibility, while introducing digital billing and visual inventory systems to streamline operations. Additionally, I developed employee retention strategies and conducted international market research, enhancing my skills in data analytics, strategic planning, and operational management.*

SUMMER 'INTERNSHIP PROJECT' 16TH JUNE, 2025 To 26th JULY, 2025

On "Exploring Vibe Coding: Innovative Approaches in Modern Software Development"

- *Throughout my internship, I gained comprehensive experience in both software development and digital marketing. I learned to create software prototypes and functional applications, while also mastering key strategies like SEO, paid ads, and lead generation, all enhanced by the use of AI tools.*

WINTER 'RESEARCH PROJECT' MAR - APR 2024

On "A Study on Consumer Purchase Intention Towards Indian Brand Versus Foreign Brand of Apparel in Surat City"

- *Through my research project, I learned about factors influencing consumer behavior, such as brand image and cultural identity. It enhanced my skills in research design, data collection, and analysis using tools like SPSS. Additionally, I gained valuable industry knowledge and improved my critical thinking, problem-solving, and communication abilities.*

Summer 'Internship Project' 1ST MAY, 2023 To 30th JUNE, 2023

At Sunrise Efficient Marketing Limited

- *During my internship, I gained practical exposure to business operations and developed skills in teamwork, communication, and problem-solving. This experience helped me to understand the decision-making processes and apply theoretical knowledge in a professional setting.*

CERTIFICATIONS AND PARTICIPATION

CERTIFICATIONS: I hold certifications in AI in Digital Marketing and ChatGPT: Master the Art of Prompting from IIDE – The Digital School (October 2025), Prompt Engineering for Everyone from Cognitive Class (October 2025), and Digital Marketing from Erasmus+ InEq-SL (September 2025), covering SEO, SEM, and social media marketing. Additionally, I completed NSE Quiz – Series 3 from NSE India (March 2024), Financial Literacy Awareness Program from NJ Group (September 2022), and IP Awareness/Training Program from the Intellectual Property Office, India (August 2022).

PARTICIPATION: I competed in the Tug of Words event at Horizon Intra College Management Fest 2024–25 at S. R. Luthra Institute of Management, demonstrating communication and strategic thinking skills. I also participated in an essay writing competition on "Importance of Constitutional Values and Rights and Duties," showcasing research and creative writing abilities, and attended a half-day awareness workshop on Electric Vehicles by GERMI.
